

SOLVENT GUIDE

(Revised 05-JUL-2022)

PRODUCT	Conformal Coating Removal	Depotting / Decapsulation	De-inking	Cleaning Mixing & Metering Equipment	Cleaning Spray Guns, Nozzles, Tips, Etc.	Flushing Application/ Dispensing Equipment	Cleaning Molds	Paint Stripping	Adhesive Removal	Description/ Notes
To Remove: EPOXIES										
Dynasolve 185 or Decap	X	X	X	X	X		X	X	X	Removes amine-cured epoxies
Dynasolve 700 Series	X	X	X	X	X		X	X	X	Removes anhydride-cured epoxies
Dynasolve M-35						X				Removes most uncured polymers
To Remove: URETHANES										
Dynasolve CU-6				X	X	X				Flushes uncured material and removes crystallized isocyanate
PUR-Strip 100 & 300			X	X	X		X	X	X	Excellent for cured material
PUR-Flush 100 & 200						X				Flushes that leave minimal residue
UR-Away FL						X				Viton-safe flushing agent
Dynasolve 700 Series	X	X	X	X	X		X	X	X	711 is aluminum-safe
Poly-Flush						X				Versatile flush for uncured material
Dynasolve 190	X	X								Electronics cleaner
Uresolve 411	X	X								Electronics cleaner
To Remove: SILICONES										
Dynasolve 220/ 225/ 230	X	X	X	X	X				X	Hydrocarbon based
Dynasolve 218	X	X	X	X	X				X	Non-flammable version of 225
Dynasolve M-10						X				Excellent for uncured silicones
To Remove: REACTIVE ADHESIVES										
Dynaflake									X	Powdered roller cleaner
Dynasolve 700 Series				X	X				X	Very effective when heated
